1. Installation

1.1. Server requirements

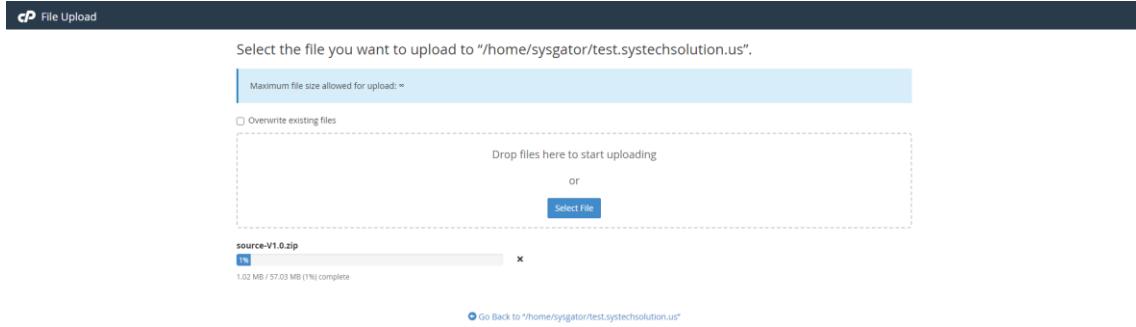

- a. PHP >= 7.3 to <=8.1
- b. MySQL / MariaDB Server for MySQL 5.6.17 or above
- c. BCMath PHP Extension
- d. Ctype PHP Extension
- e. Fileinfo PHP Extension
- f. JSON PHP Extension
- g. Mbstring PHP Extension
- h. OpenSSL PHP Extension
- i. PDO PHP Extension
- j. Tokenizer PHP Extension
- k. XML PHP Extension

1.2. Upload source file

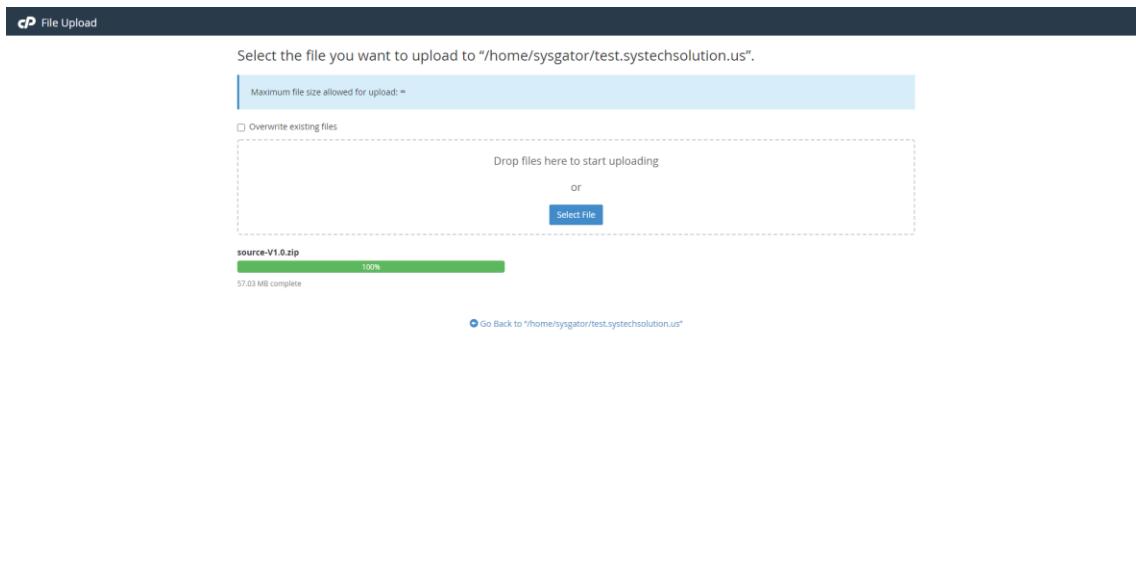

Step-01: First you need to upload the source-v[X].zip to public root folder.

Documentation by dParking v2.0

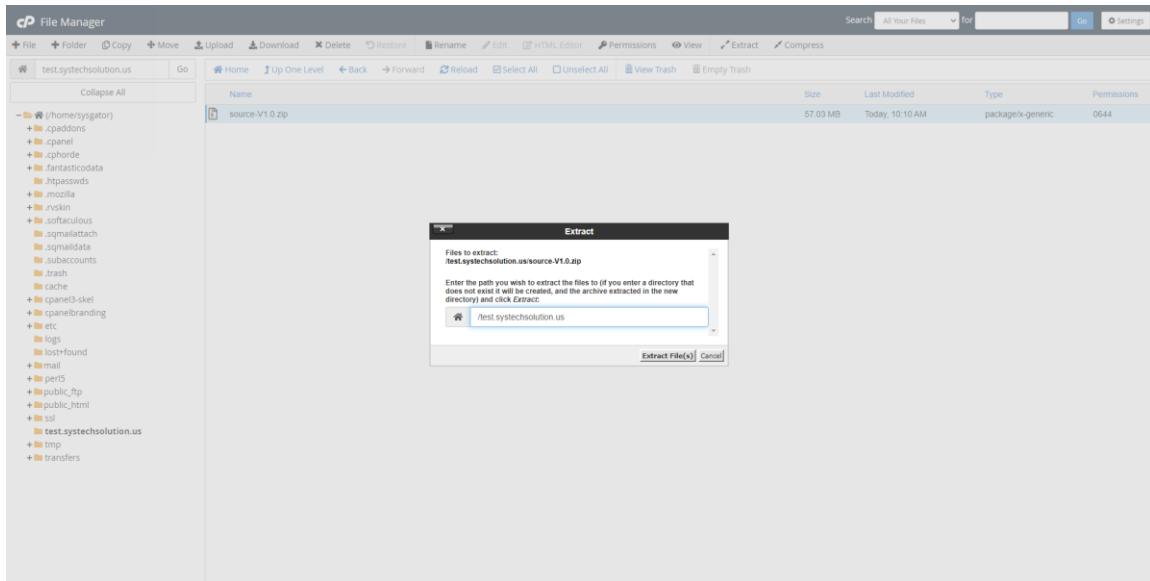

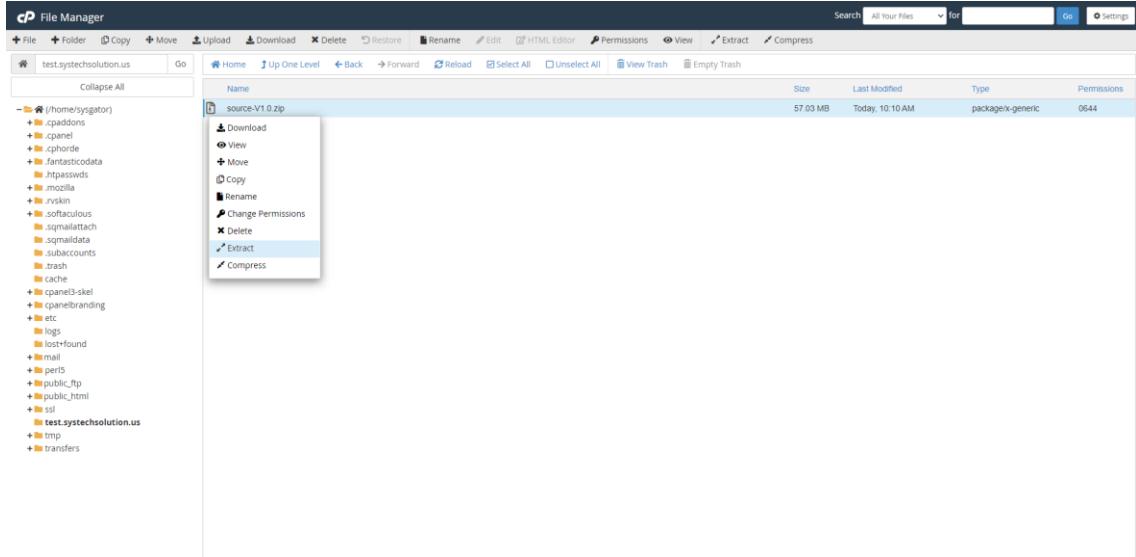

Step-02: Wait until uploading is finished.

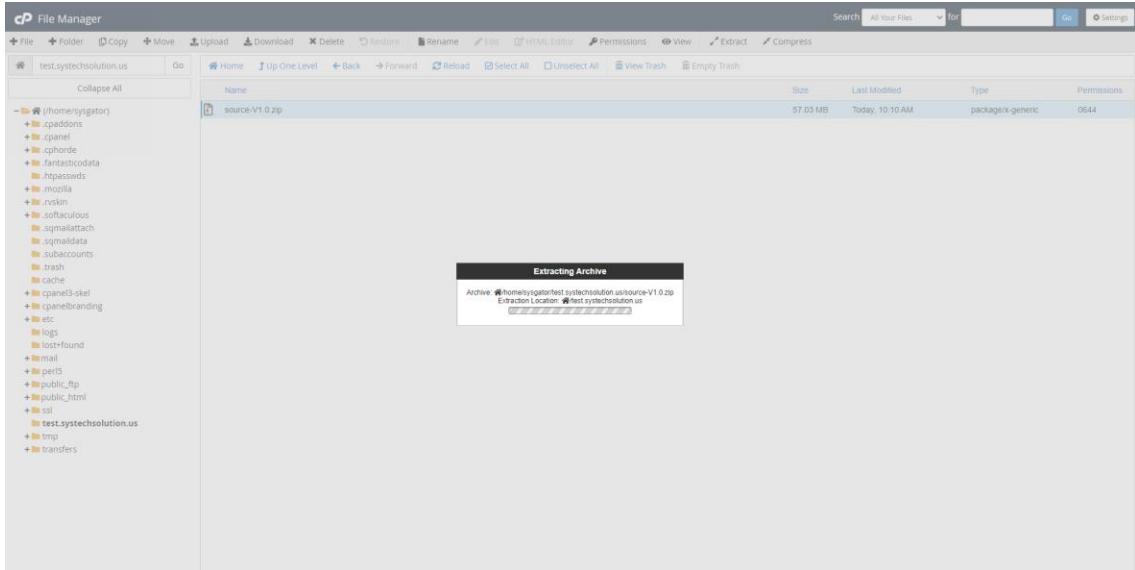

Step-03: After that, please extract the folder in the public root directory.

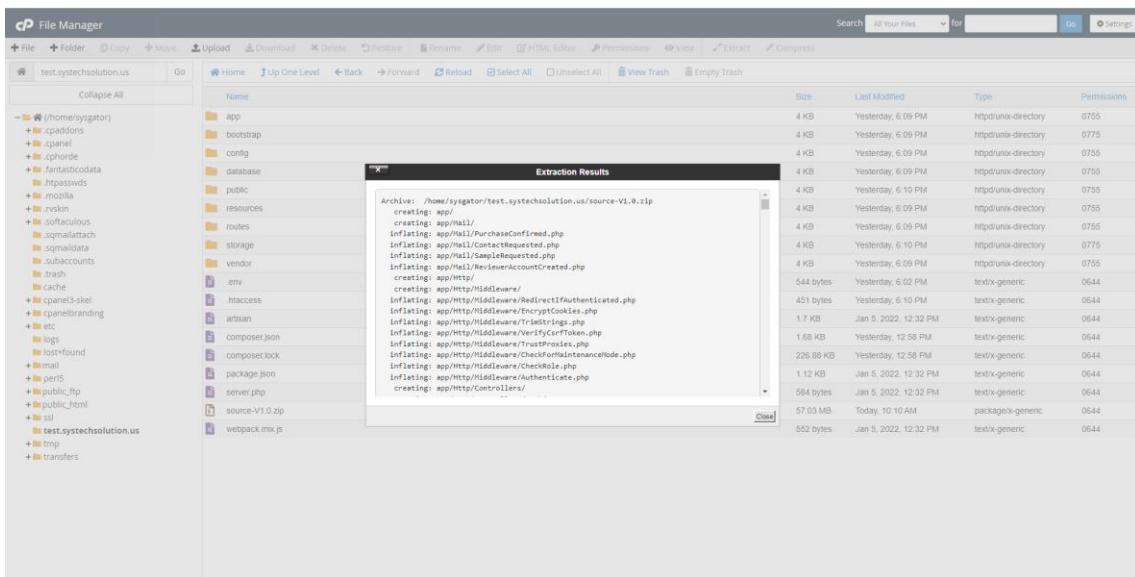

Documentation by dParking v2.0

Documentation by dParking v2.0

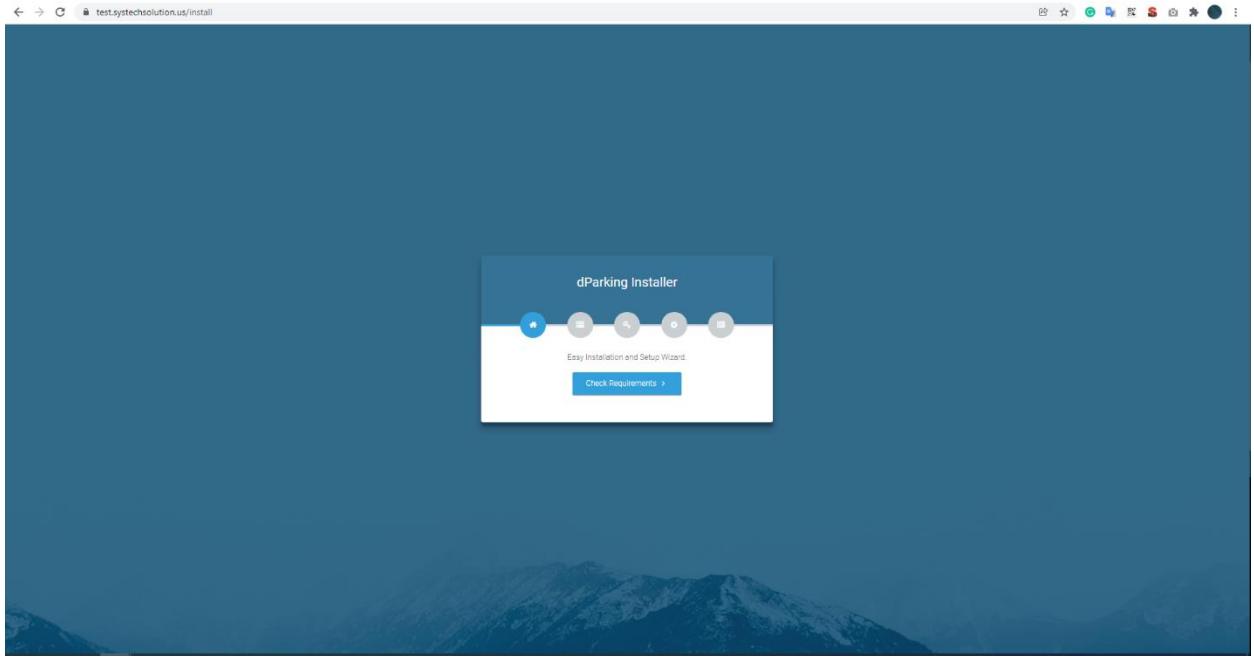

Step-04: Wait until the extraction is finished.

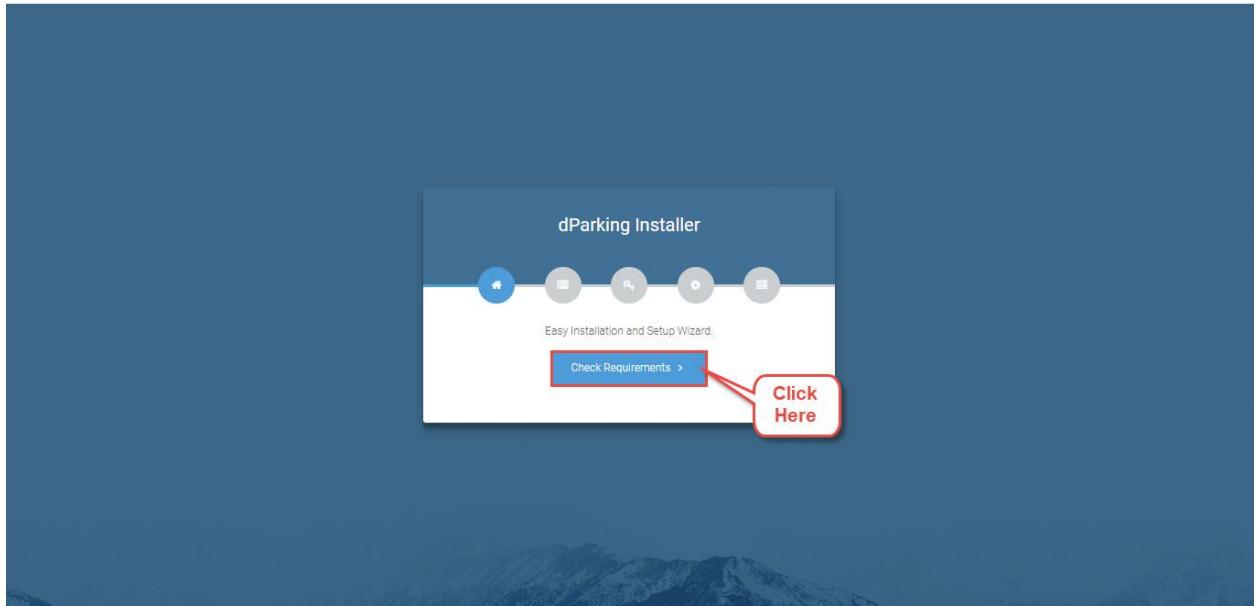

That's it, now you can start the installation.

1.3. Using Installer

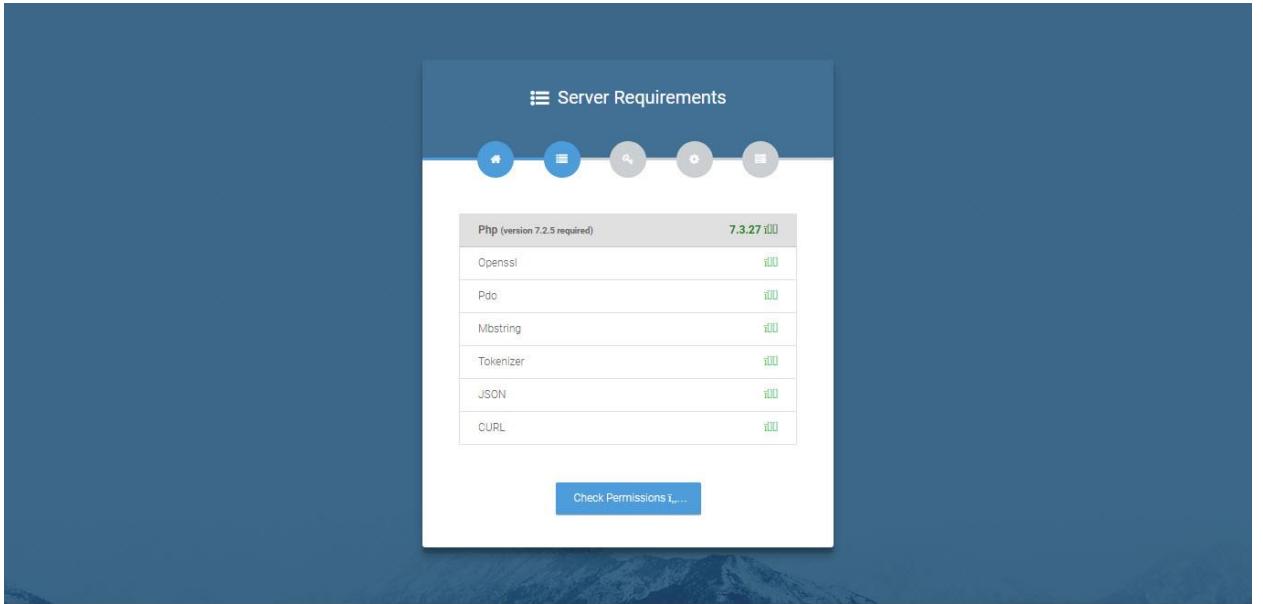

Follow the steps and start using the appellation.

Step-1: Click “Check Requirements” button.

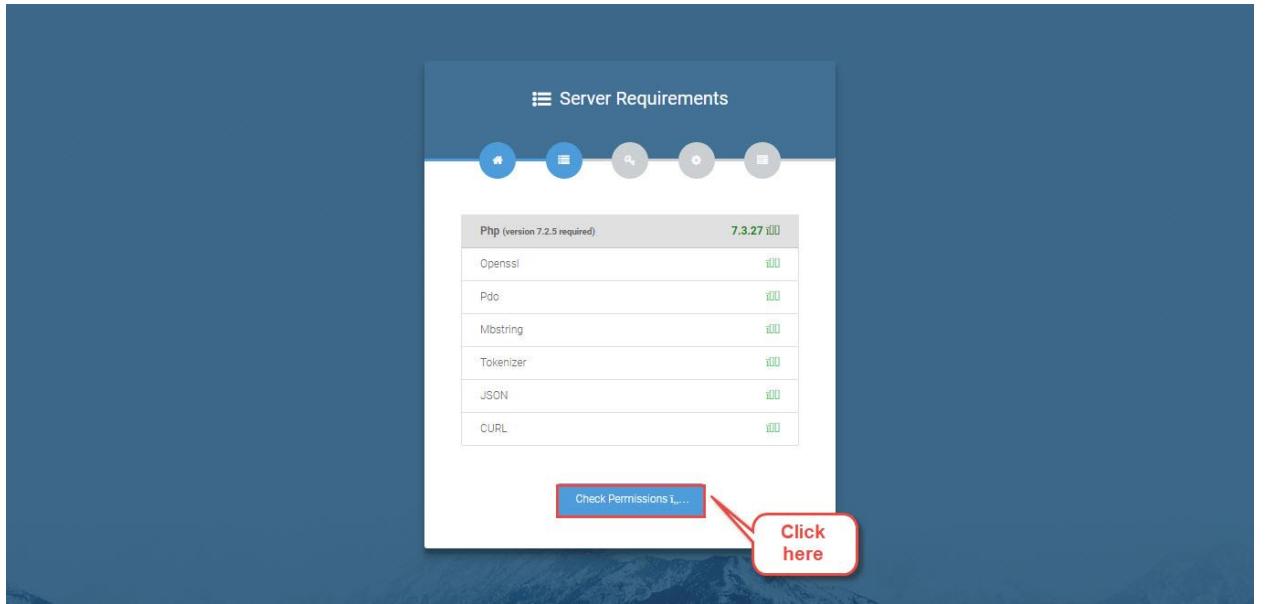

Then the user will get requirements checking page.

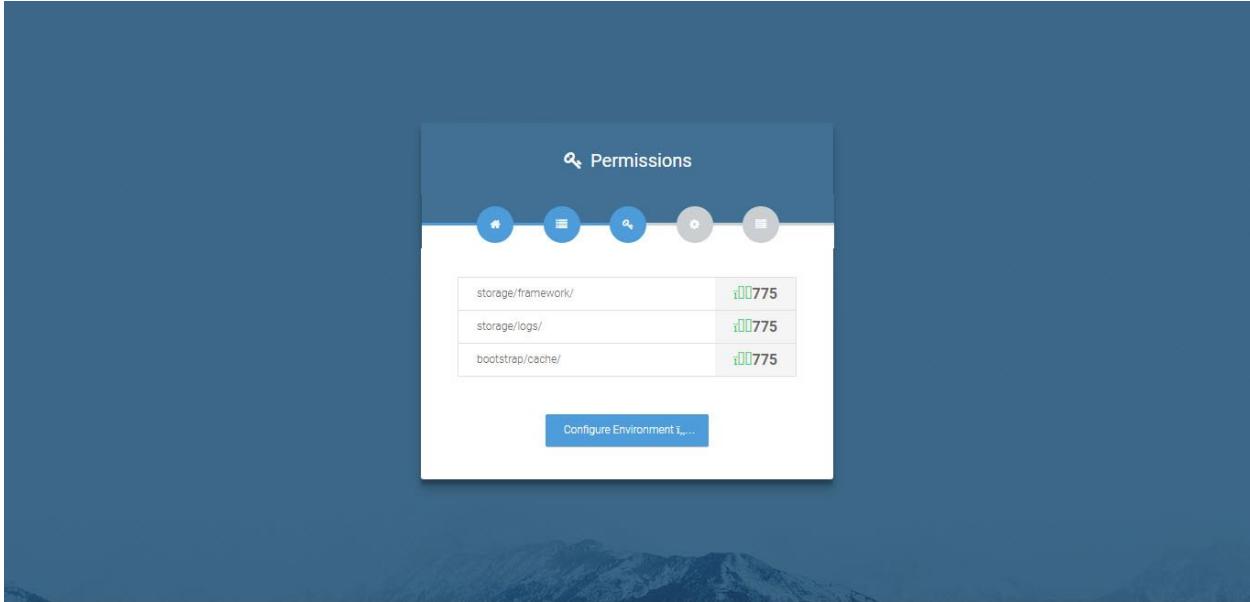

Please check the requirements here.

Step-2: Click "Check Permissions" button.

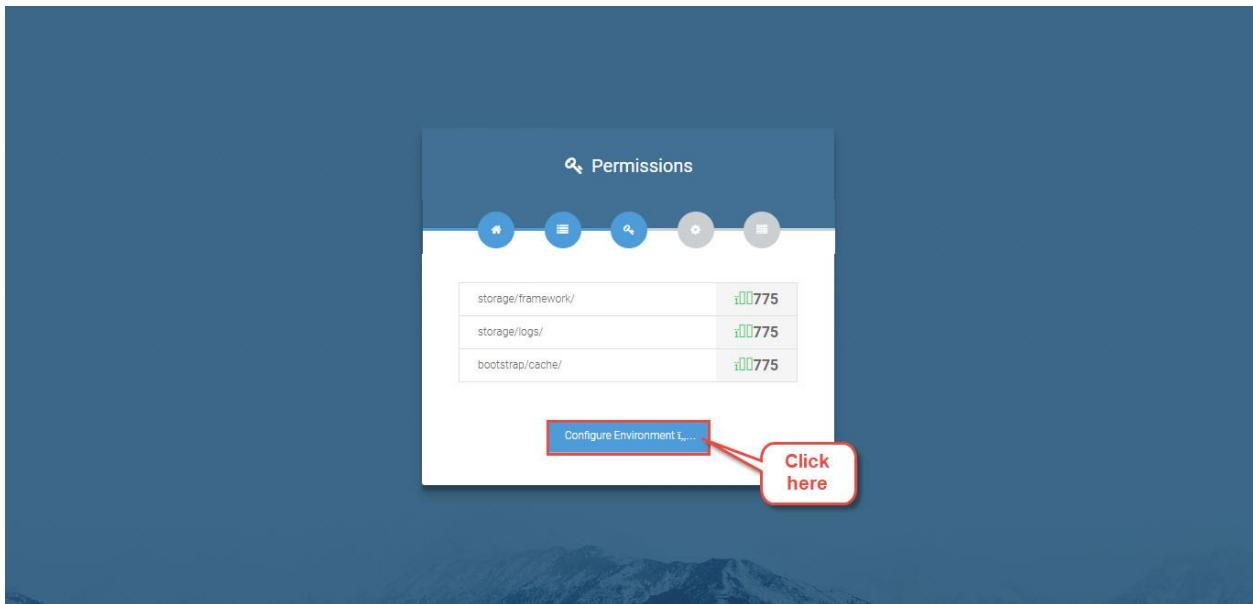

Then user will get permission page.

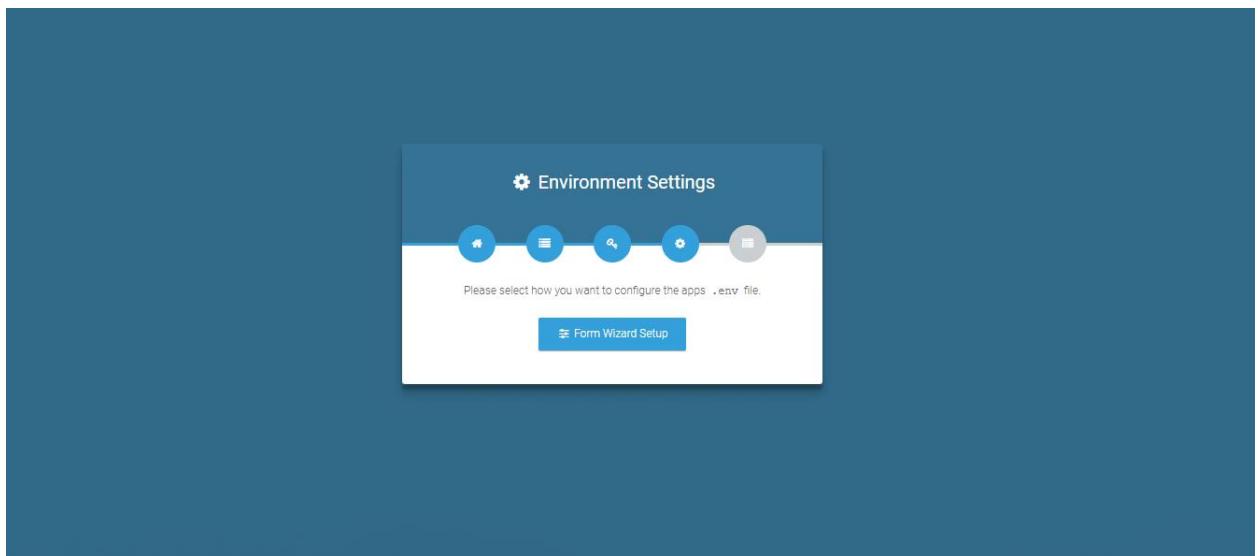

Please check permission here.

Step-3: Click “Configure Environment” button.

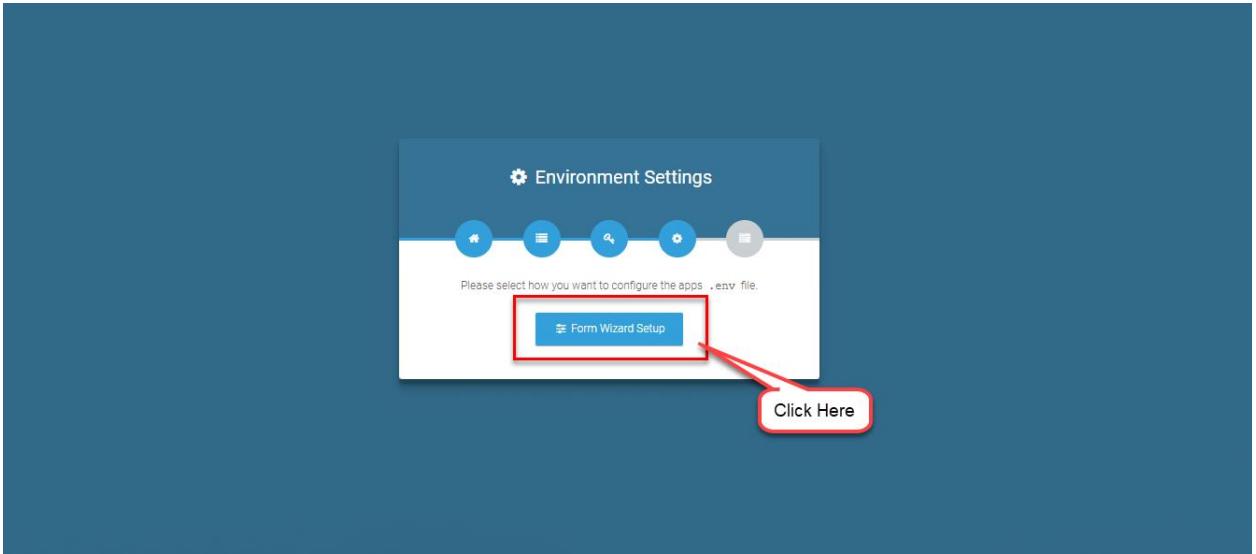

Then user will get the environment page.

Step-4:

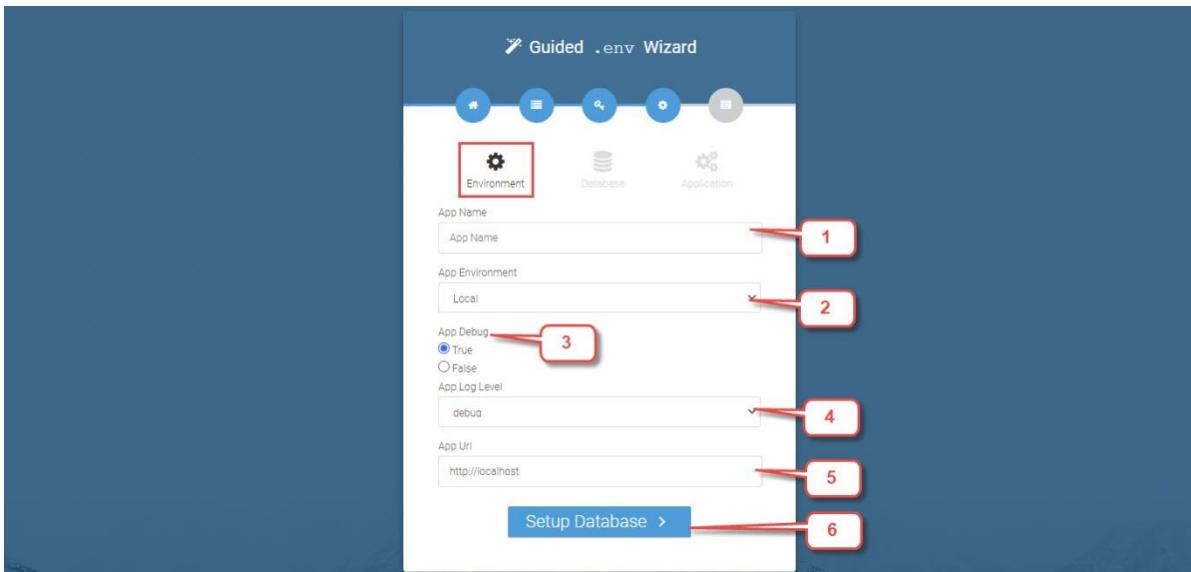

4.1) For setup environment with form, click “Form Wizard Setup” button.

User will get environment setup, where you can set environment, database and application Setup option.

To configure the environment, follow the instruction:

Click Environment:

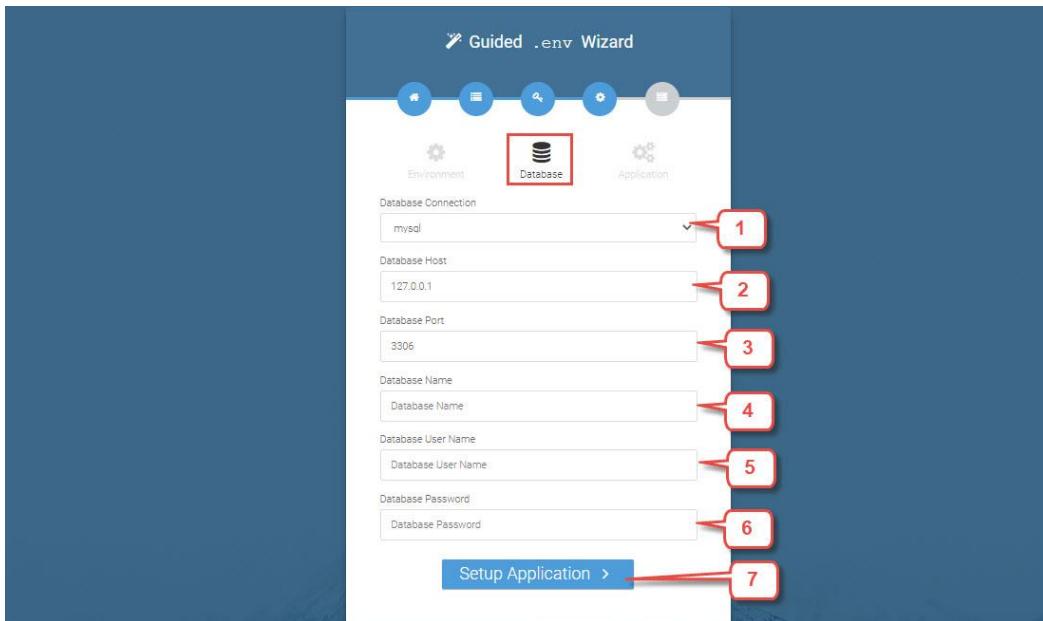

1. Give application name.
2. Select the application environment. Such as local, QA, development, production or others.

3. Set application debug true or false according to requirements.
4. Select application local level. Such as debug, info, notice, warning etc.
5. Give application domain name (application url).
6. Click the “Setup Database” button.

To configure database, follow the instruction:

To create database go to cPanel => MySQL® Databases then create database then create database user name and assign database user name. Set all database permission. After that follow the next instruction.

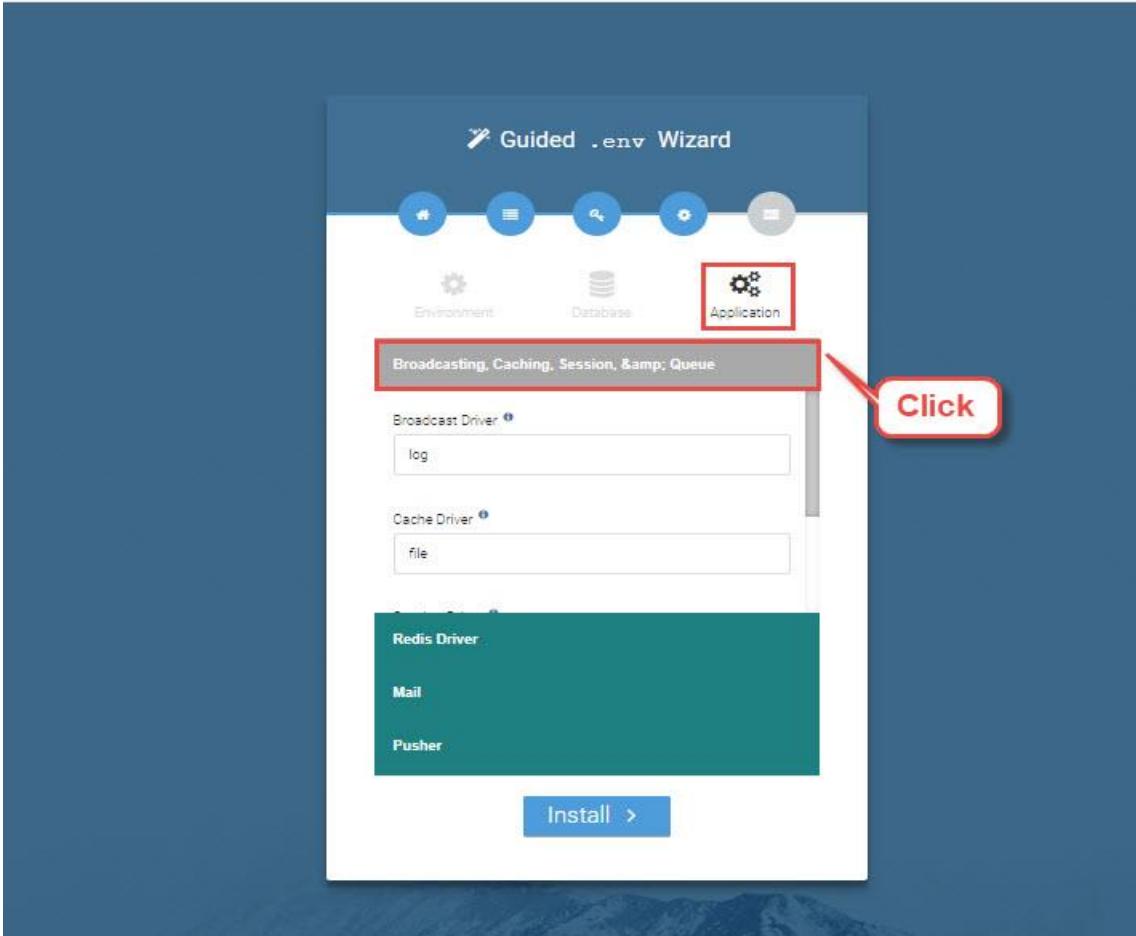

1. Select database connection (database type). Such as mysql, sqlite, pgsql etc.
2. Give database hostname (IP address of database server).
3. Give database port name.
4. Give database name.
5. Give database username.
6. Give database password.

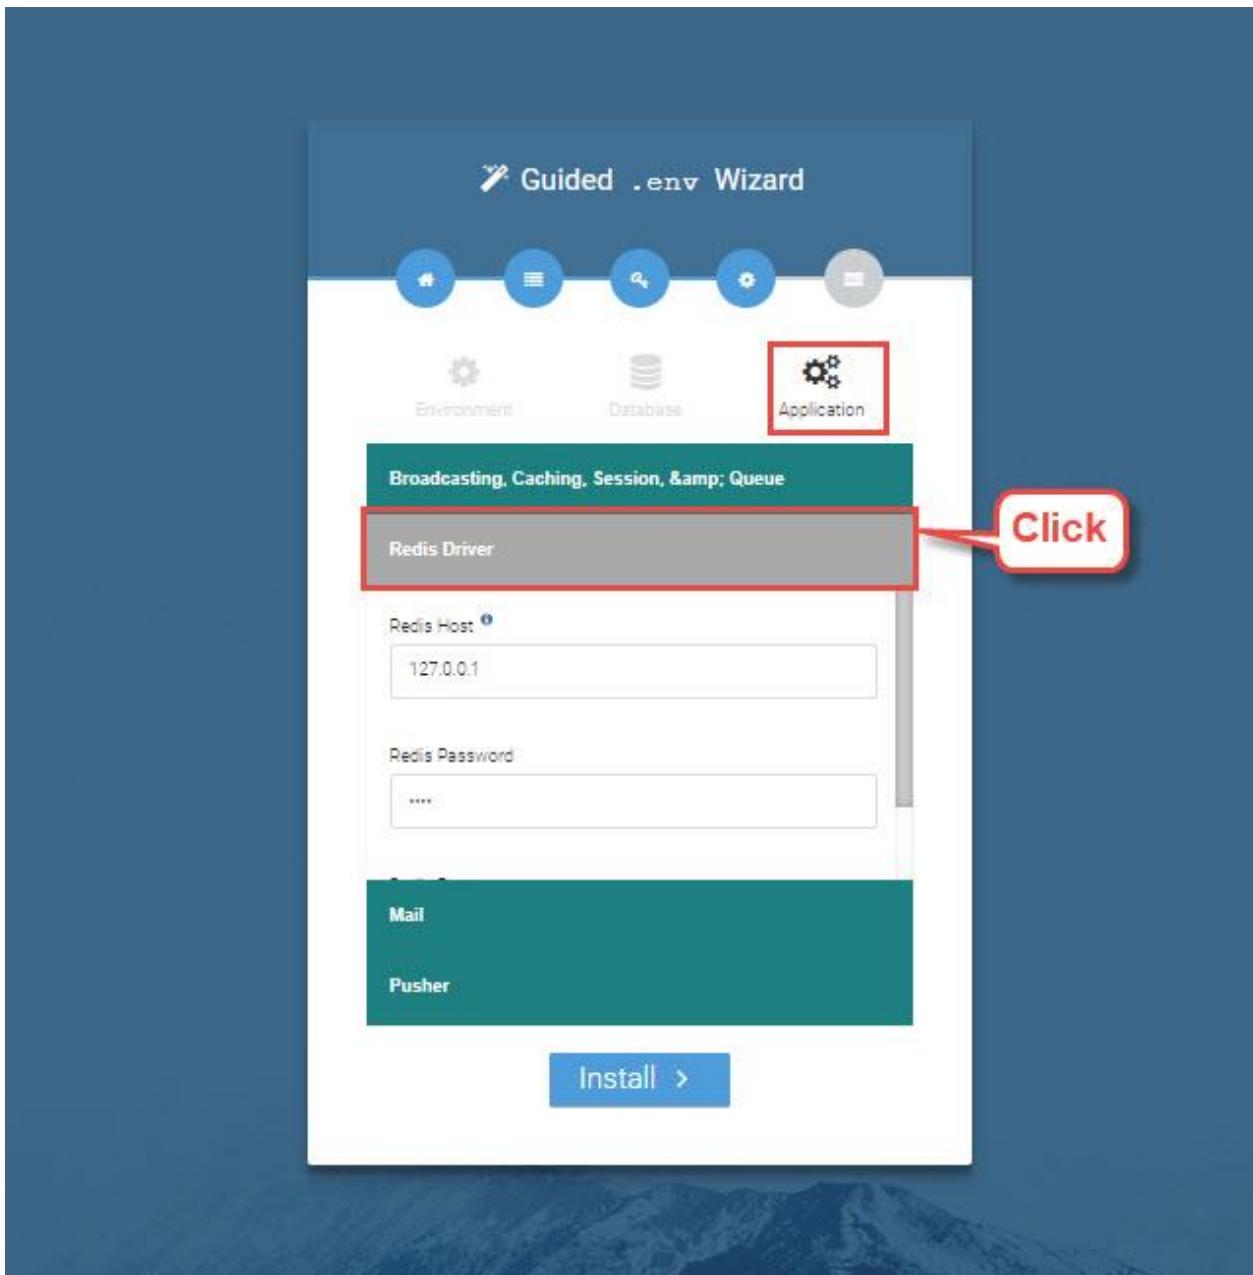

To configure application:

Click Application:

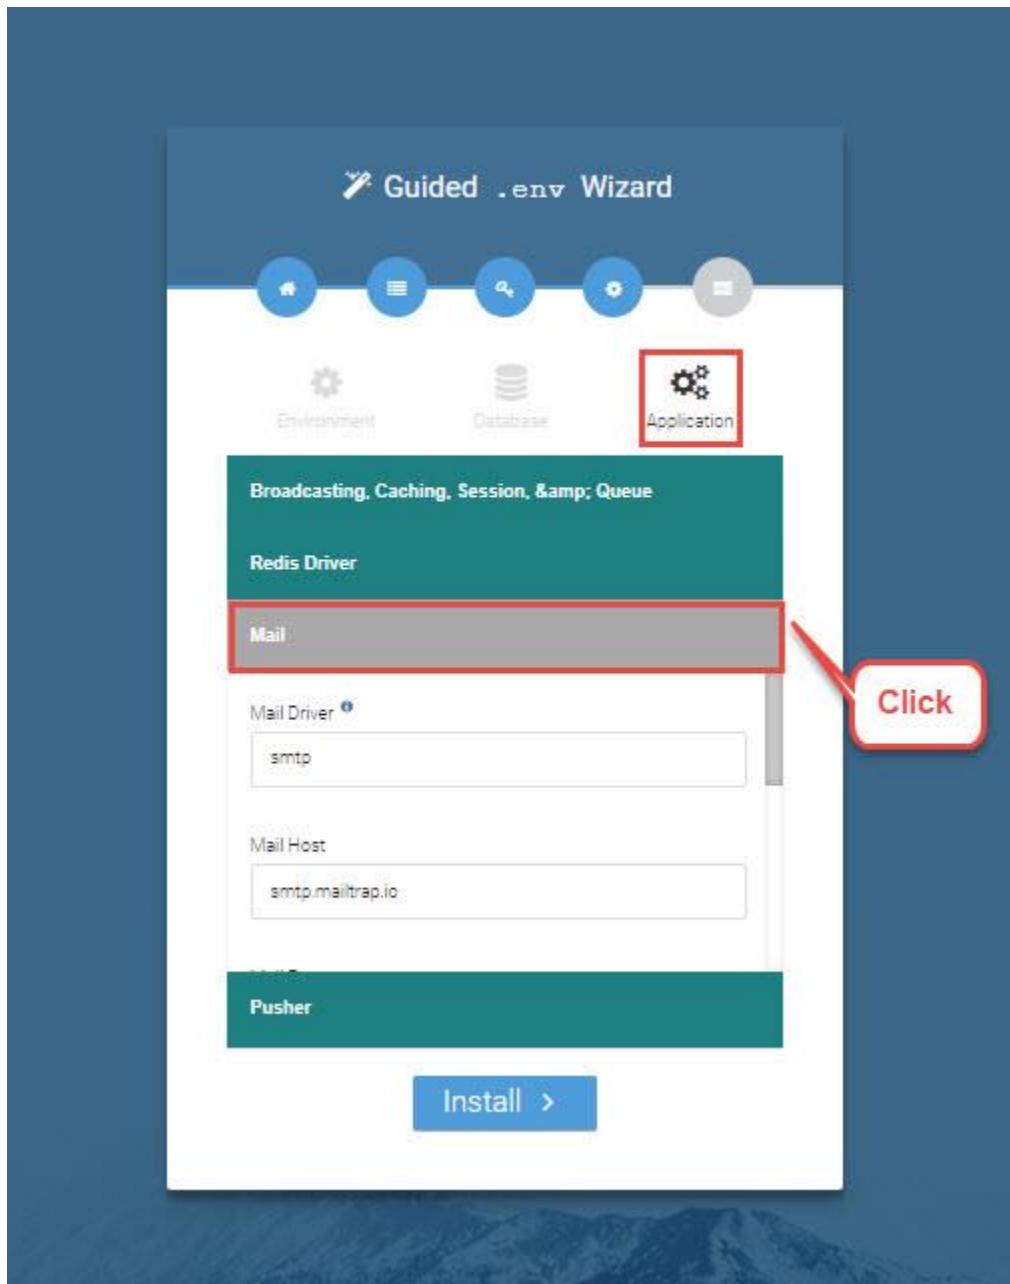

Click “Broadcasting, Caching, Session, Queue” to set up broadcasting, caching, session, queue.

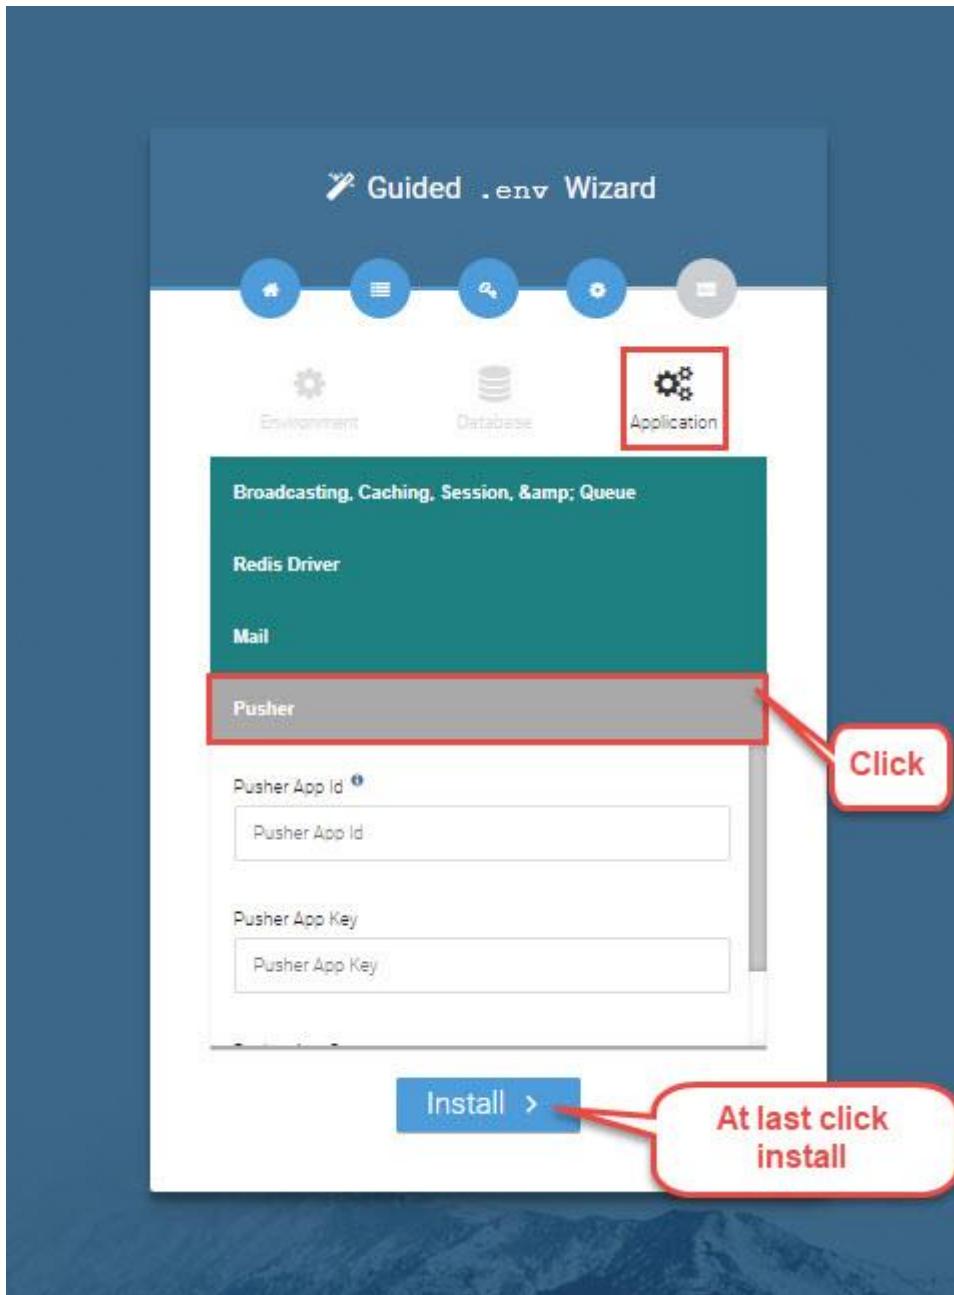

Click “Redis Driver” to set up Redis Host, Redis Password and Redis Port.

Click "Mail" to set up Mail Driver, Mail Host, Mail Port, Mail Username, Mail Password and Mail Encryption.

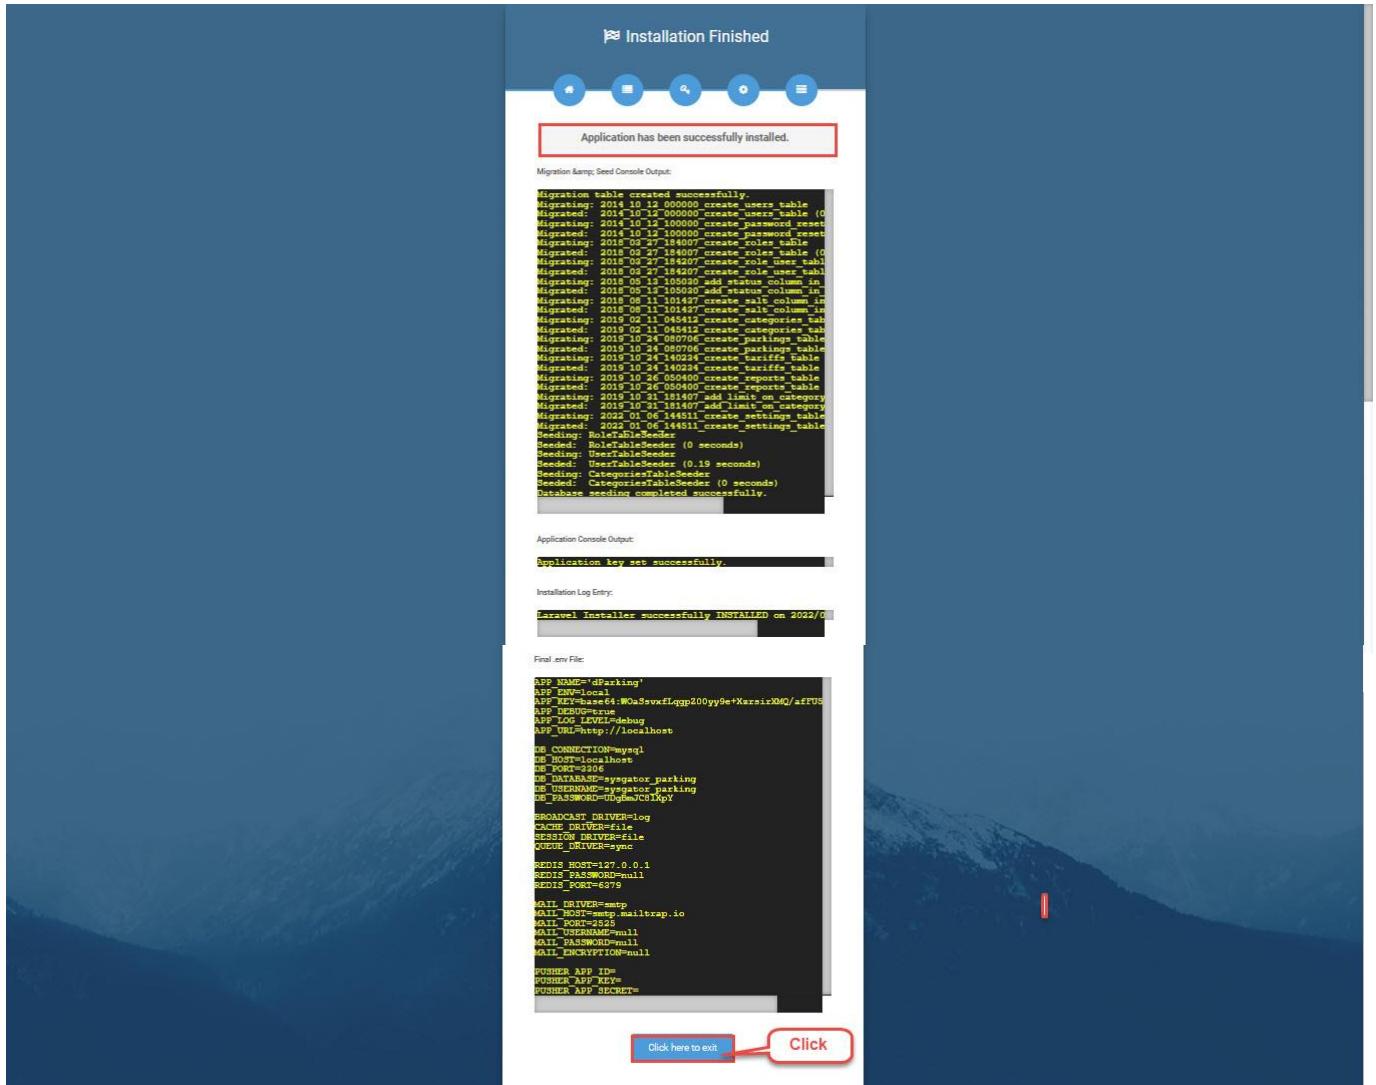

Click “Pusher” to set Pusher App Id, Pusher App Key, Pusher App Secret.

At last, click the “Install” button to complete the install process.

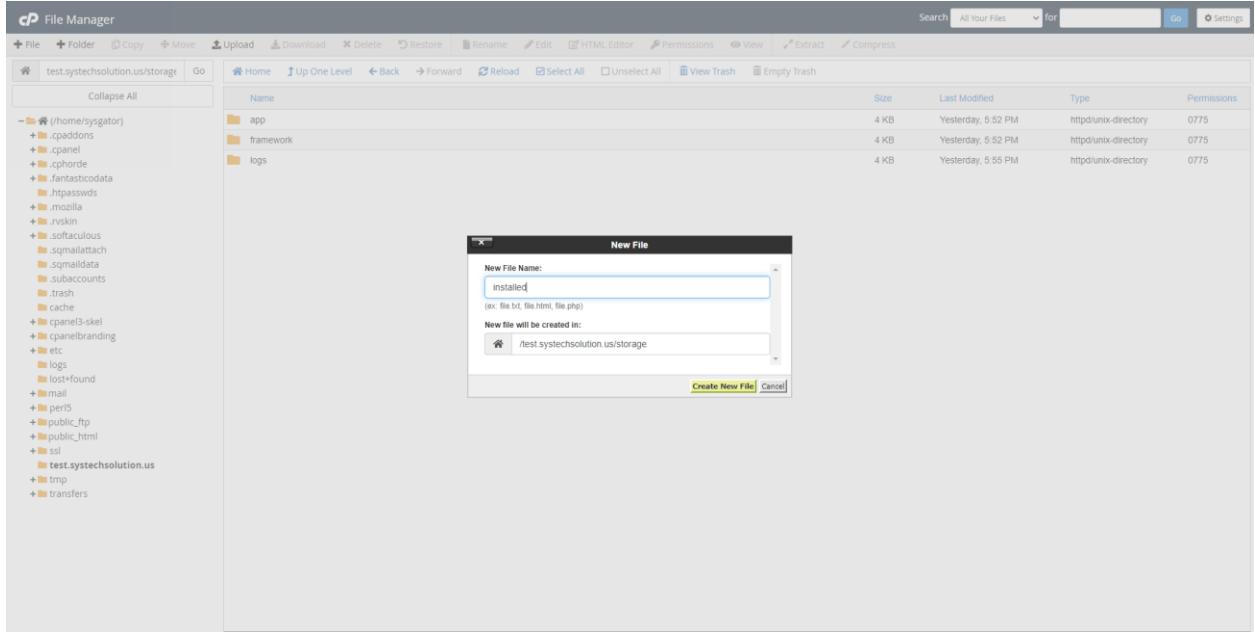

Click “Save and install” button to save and install the environment.

The user will get a successful message. At last, click here to exit.

1.4. Manual Installation

Create an “installed” file in storage folder.

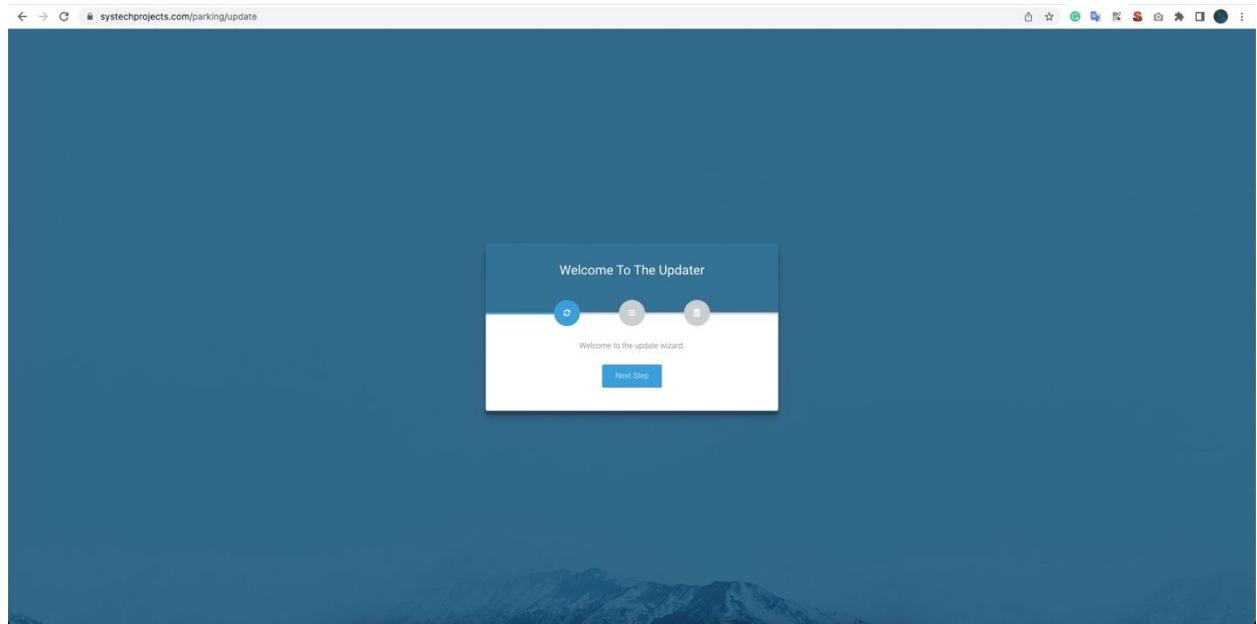

Update the .env file as per your need and that's it.

Set variable DEMO=true if you want see dummy data or set DEMO=false.

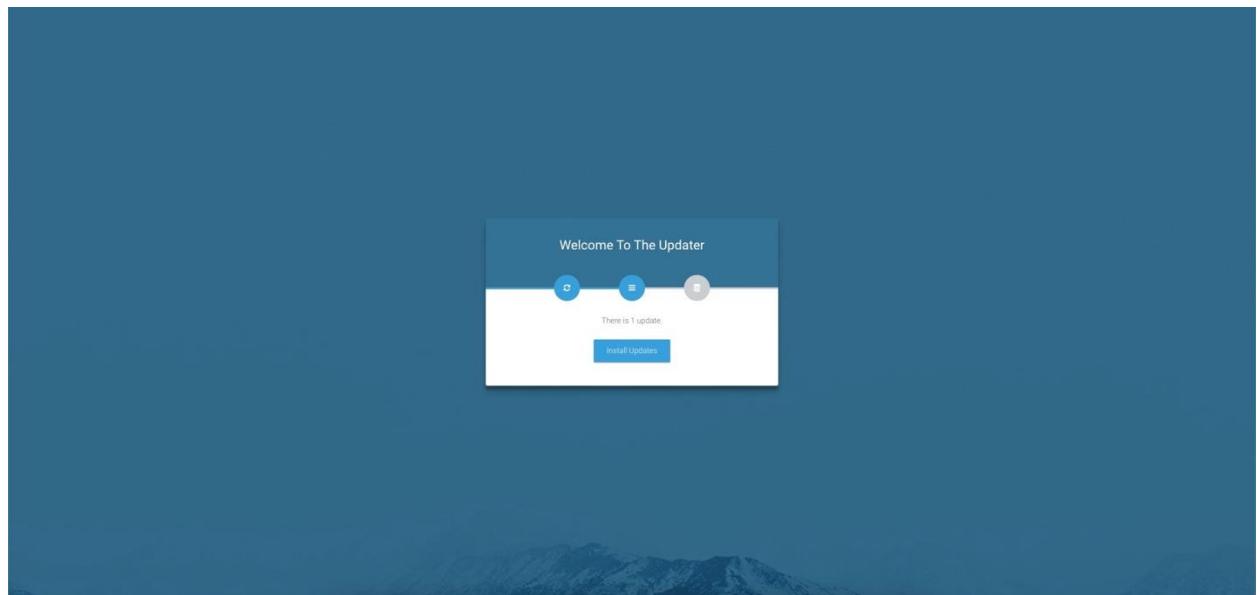

1.5. Updating Application

Extract all file to your application root folder and replace all files.

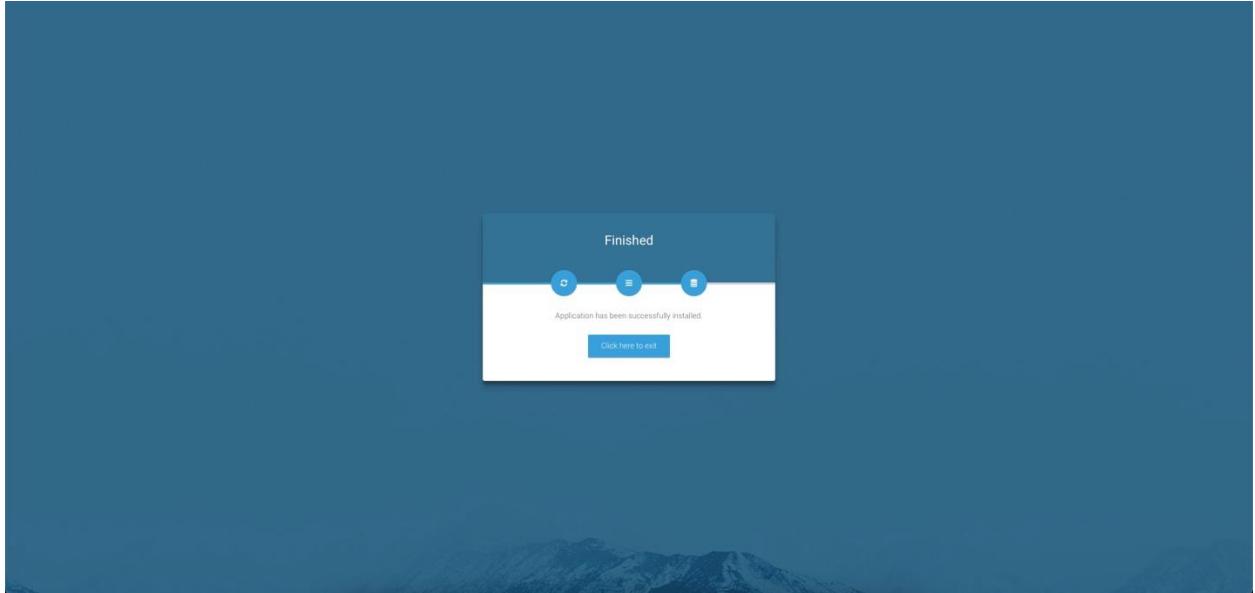

Navigate to **YOUR_APPLICATION_URL/update** address to start the update process.

Click “Next Step” to start.

Click “Install Updates”

2. Login:

Default Login credentials

Admin Credentials User: admin@gmail.com Password: 123456	Admin Credentials User: operator@gmail.com Password: 123456
---	---

Feature definition: Through the login feature, an authorized user can log into the software.

A screenshot of the "Admin Login" interface. It features two input fields: "E-Mail Address" and "Password", both with red boxes numbered 1 and 2 respectively. Below these is a "Remember Me" checkbox with a red box numbered 3. To the right of the "Login" button is a red box numbered 4. At the bottom left is a link "Forgot Your Password?" with a red box numbered 5.

-
- 1) Give the user's email address.

- 2) Give the user's password.
- 3) If you want that browser will remember you for further login then check the checkbox. However, if you do not want that browser will save your password for further login then leave the checkbox unchecked.
- 4) Click login to login into the software.
- 5) If you have forgotten the password, then click the "Forget Your Password?" link. You will get a page.

Reset Password

E-Mail Address 6

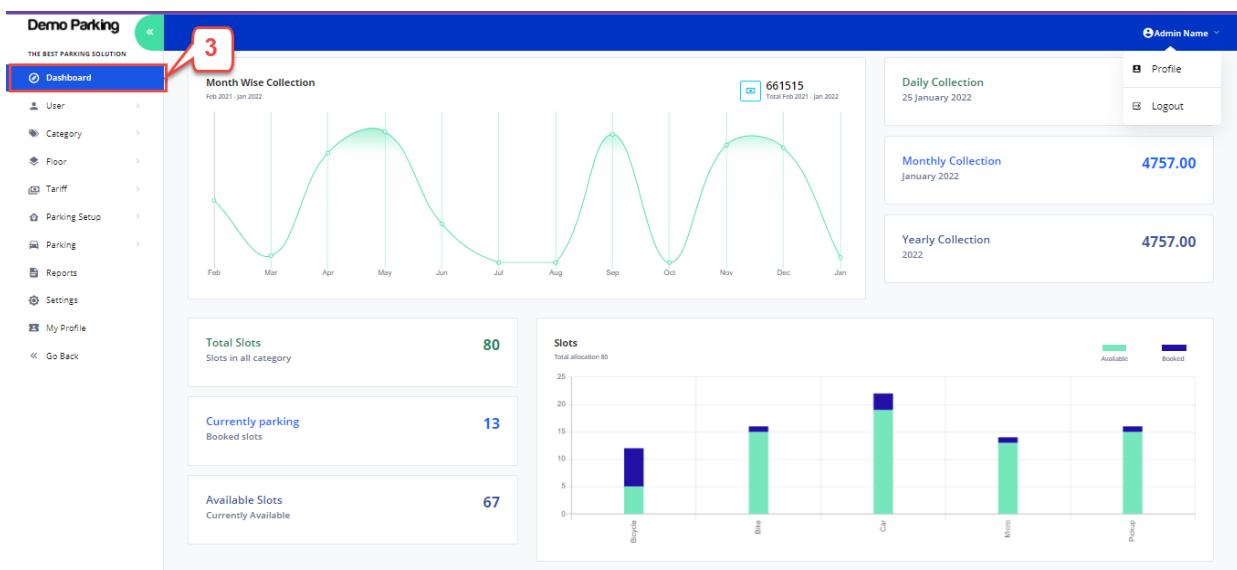

7

- 6) Give your user email here.
- 7) Click this button to get a password recovery email. Then rest your password.

3. Dashboard:

Feature definition: To see key performance at-a-glance, go to the dashboard.

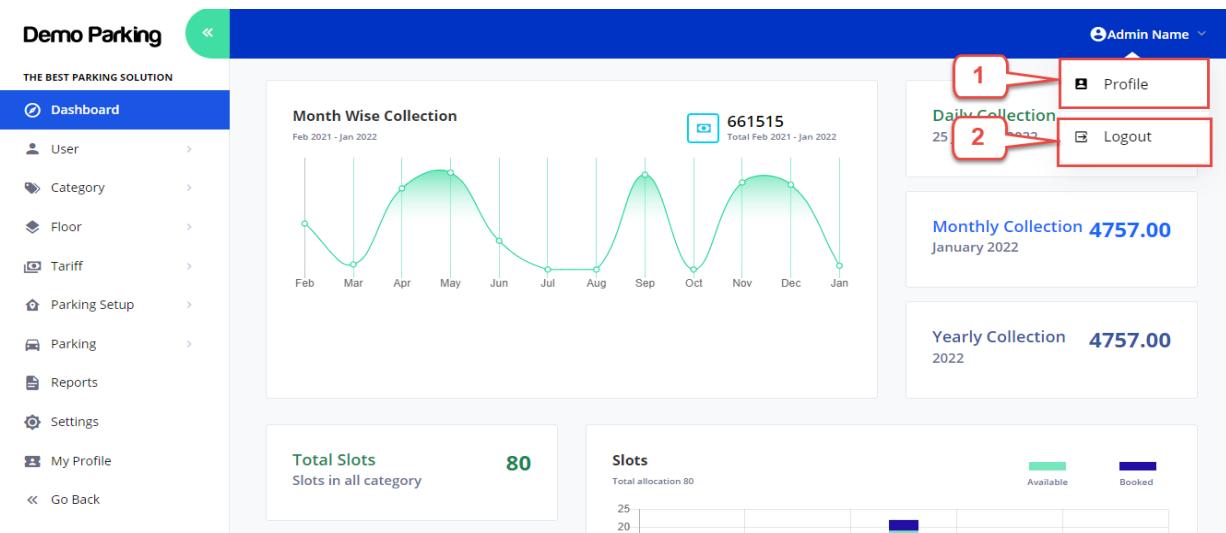

Click Dashboard to go to the Dashboard menu.

Documentation by dParking v2.0

- This line graph shows the month wise collection.
- This box shows the daily collection amount.
- This box shows the monthly collection amount.
- This box shows the yearly collection amount.
- This box shows the total slots quantity.
- This box shows the currently parking quantity.
- This box shows the available slots quantity.
- This bar graph shows the slots availability.
- For logout click this button. Here you will get 2 options.

- Click here if you want to go to profile page.
- Click here if you want to logout.

4. User Management:

Feature definition: Only registered users can log into the software. To register, edit and see a user; we use this feature.

Click the User Management on the left side menu to come to the user management page.

The screenshot shows the dParking v2.0 dashboard. On the left, a sidebar menu lists various options: Dashboard, User (highlighted with a red box and the number 4), Category, Floor, Tariff, Parking Setup, Parking, Reports, Settings, My Profile, and Go Back. The main area displays several cards: 'Month Wise Collection' (Feb 2021 - Jan 2022) with a total of 661515 and a chart showing collection peaks in May and November; 'Daily Collection' (0 on 25 January 2022); 'Monthly Collection 4757.00' (January 2022); 'Yearly Collection 4757.00' (2022); 'Total Slots 80' (Slots in all category); and 'Slots' (Total allocation 80, with a chart showing 25 available and 5 booked).

- a. Here blue color barcode is the taken vehicle slot which is not check out yet.
- b. Click here to print that barcode.
- c. Click here to End that vehicle parking time.
- d. Click here to edit that parking details.
- e. Click here for delete parking.

The screenshot shows the 'All Parking' list page. At the top, there are buttons for 'Update' and 'Clear'. Below is a table with 10 entries. The table has columns: #SL, Barcode, Vehicle No, Type, In Time, Out Time, Amount, Slot, and Option. The 'Amount' column shows values like 0.00, 29.00, etc. The 'Slot' column shows values like B156, B255, etc. The 'Option' column shows icons for barcode, car, bicycle, and other options. A search bar labeled 'Search:' is at the top right. Below the table, it says 'Showing 1 to 10 of 8,984 entries'. At the bottom, there are navigation buttons for pages 1 through 899.

Annotations:

- 1: Red box around the 'Search:' input field.
- 2: Red box around the page navigation buttons.
- 3: Red box around the first page button '1'.
- 4: Red box around the 'Show 10 entries' dropdown.

1. User can search barcode from this search box.
2. If you want to go to next page, click here.
3. If you want to go to previous page, click here.
4. If you want to view more than 10 data click here.

10.2. All Parking List:

To see parking list, print barcode, edit parking, delete parking, and end parking, please click here. Here you will get a page.

The screenshot shows the 'All parking list' page. On the left, there's a sidebar with links like Dashboard, User, Place, Category, Floor, Tariff, Parking Setup, Reports, Settings, Language, My Profile, and Go Back. The 'Parking' section is expanded, showing 'Add Parking' and 'All parking list' (highlighted with a red box and labeled '10.2'). The main area has sections for 'Total Parking Space' (78), 'Total Booked' (4), and 'Total Available' (74). It also has a 'Quick Checkout' section with a barcode input and a 'Find' button. Below is a table with 10 entries. The table has columns: #SL, Barcode, Vehicle No, Type, In Time, Out Time, Amount, Slot, and Option. The 'Amount' column shows values like 0.00, 60.00, etc. The 'Slot' column shows values like slot1, B2542, etc. The 'Option' column shows icons for barcode, car, bicycle, and other options. Annotations are as follows:

- a: Red box around the 'Barcode' input field.
- b: Red box around the 'Find' button.
- c: Red box around the 'Vehicle No' column header.
- d: Red box around the 'Type' column header.
- e: Red box around the 'In Time' column header.
- f: Red box around the 'Out Time' column header.
- g: Red box around the 'Amount' column header.
- h: Red box around the 'Slot' column header.

- a. In this box user can see the total parking space.
- b. In this box user can see the total booked space.
- c. In this box user can see the total available space.
- d. Here blue color barcode is the taken vehicle slot which is not checked out yet.
- e. Black barcode is the ended vehicle's barcode.
- f. Click here to print that barcode.
- g. Click here to end that vehicle parking time.
- h. Click here to edit that parking details.
- i. Click here for delete parking.
- j. For check out enter your barcode number here.
- k. Click 'Find' button for searching the barcode.

The screenshot shows the dParking v2.0 application interface. On the left is a sidebar with navigation links: Dashboard, User, Category, Floor, Tariff, Parking Setup, Parking (with sub-links Add Parking, All Parking List, Currently Parking List, Ended Parking List), Reports, Settings, My Profile, and Go Back. The main content area has a header 'Demo Parking' and 'THE BEST PARKING SOLUTION'. It features three summary boxes: 'Total Parking Space' (79), 'Total Booked' (13), and 'Total Available' (66). To the right is a 'Quick Checkout' section with a 'Barcode' input field and a 'Find' button. Below these are two tables. The first table, 'All Parking', lists 10 entries with columns: SL, Barcode, Vehicle No, Type, In Time, Out Time, Amount, Slot, and Action buttons. The second table, 'Currently Parking List', lists 10 entries with similar columns. Red callout boxes labeled a through k point to various UI elements: a points to the 'Total Parking Space' box; b points to the 'Total Booked' box; c points to the 'Total Available' box; d points to the 'Barcode' input field in the 'Quick Checkout' section; e points to the 'Barcode' column in the 'All Parking' table; f points to the 'Print' icon in the 'Action' column of the 'All Parking' table; g points to the 'Edit' icon in the 'Action' column of the 'All Parking' table; h points to the 'Delete' icon in the 'Action' column of the 'All Parking' table; i points to the 'Delete' icon in the 'Action' column of the 'Currently Parking List' table; j points to the 'Barcode' input field in the 'Quick Checkout' section; k points to the 'Find' button in the 'Quick Checkout' section.

10.4. Ended Parking List:

To see ended parking list, edit ended parking list, print ended parking barcode and delete ended parking, click here. You will get ended parking list page.

The screenshot shows the 'Ended Parking List' page. The sidebar on the left has a blue navigation bar with the 'Parking' section selected. Under 'Parking', the 'Currently Parking List' link is highlighted with a red circle containing the number '10.4'. The main content area displays a table titled 'Ended Parking List' with columns: #SL, Barcode, Vehicle No, Type, In Time, Out Time, Amount, Slot, and Option. The table contains 10 entries of ended parking data. At the bottom, it says 'Showing 1 to 10 of 8,962 entries' and has a page navigation bar.

- In this box user can see the total parking space.
- In this box user can see the total booked space.
- In this box user can see the total available space.
- Black barcode is the ended vehicle's barcode.
- Click here to print that barcode.
- Click here to edit that parking details.
- Click here for delete parking.

The screenshot shows the 'Ended Parking' page. The sidebar is identical to the previous screenshot. The main content area has three large boxes at the top labeled 'Total Parking Space' (79), 'Total Booked' (13), and 'Total Available' (66). Below this is a table titled 'Ended Parking' with columns: #SL, Barcode, Vehicle No, Type, In Time, Out Time, Amount, Slot, and Option. The table contains 10 entries of ended parking data. A search bar at the top of the table is highlighted with a red box and labeled 'd'. The 'Option' column for each row is highlighted with red boxes and labeled 'e', 'f', and 'g'. At the bottom, it says 'Showing 1 to 10 of 8,971 entries' and has a page navigation bar.

- User can search barcode from this search box.
- If you want to go to next page, click here.
- If you want to go to previous page, click here.
- If you want to view more than 10 data click here and select.
